# WeRateDogs: Data Analysis and Insights

Introduction

WeRateDogs is a popular Twitter account that rates people's dogs with humorous comments. In this report, we present an analysis of the WeRateDogs dataset, which consists of over 2,000 tweets. After an extensive data wrangling process, we have a clean dataset to work with, and now we can uncover some interesting insights about the dogs rated on this platform.

## 1. Most Common Dog Breeds

The top 10 most common dog breeds rated by WeRateDogs are:

Golden Retriever, Labrador Retriever, Pembroke Welsh Corgi, Chihuahua, Pug, Chow, Samoyed, Pomeranian, Toy Poodle, Alaskan Malamute
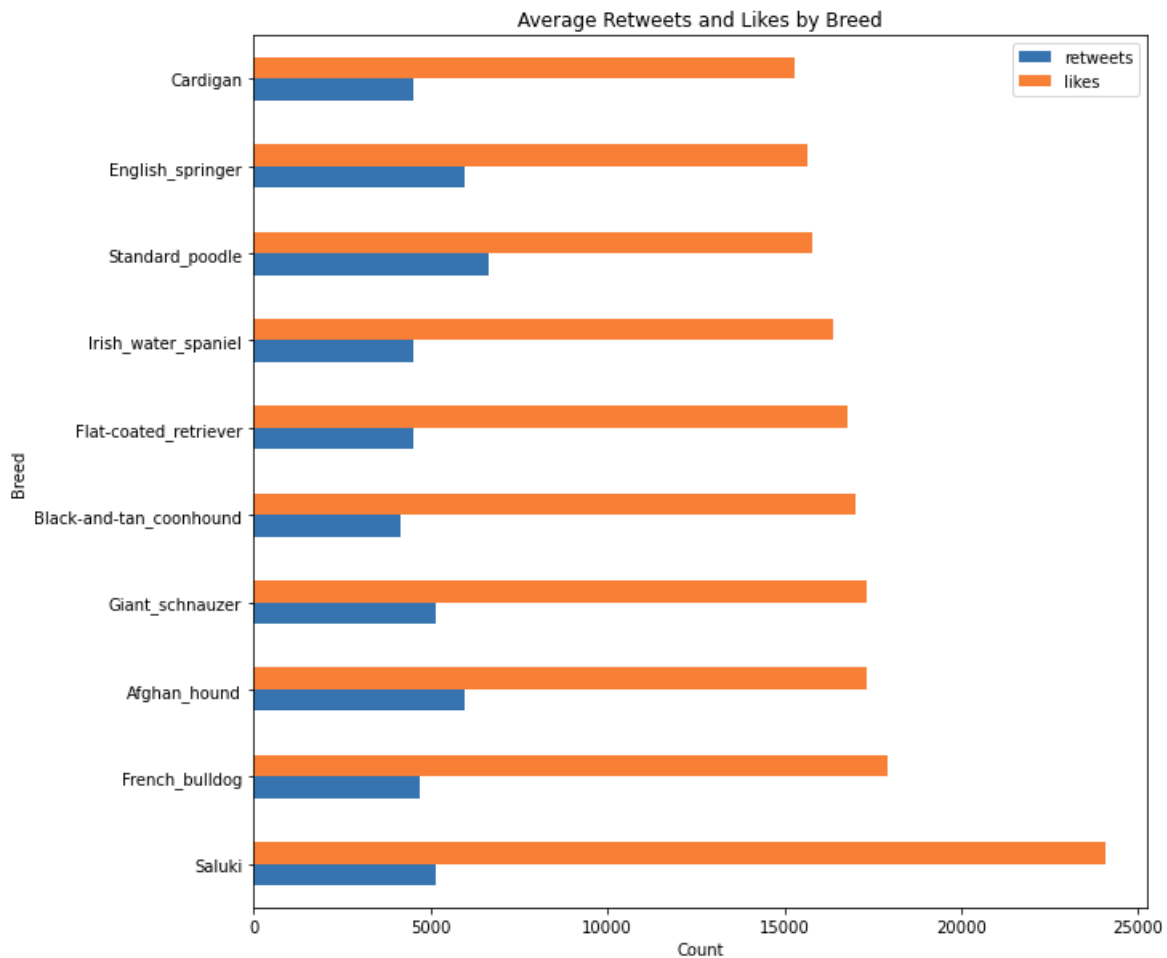

Golden Retrievers and Labrador Retrievers are the most frequently featured breeds, which is not surprising considering their popularity and lovable nature.

2. Popular Dog Stages

Dog Stage Distribution

WeRateDogs categorizes dogs into four stages: doggo, floofer, pupper, and puppo. Among these, the pupper stage is the most popular, accounting for a significant portion of the dataset. This popularity could be due to the cute and playful nature of younger dogs.

3. Dog Breeds with the Highest Retweet and Favorite Counts on Average

Average Retweets and Likes by Breed

We also analyzed the average retweet and favorite counts for each breed. Salukis have the highest average likes, while Standard Poodles have the highest average retweets.

Conclusion

WeRateDogs is a delightful platform that brings joy to dog lovers around the world. Through our analysis, we have uncovered the most common dog breeds and popular dog stages, as well as the breeds with the highest retweet and favorite counts on average. These insights not only demonstrate the diversity of dogs featured on the platform but also highlight the unique qualities that make each breed stand out.
